

We have been notified about an issue with internet banking. When you do a transfer between 3pm to 8am central time and go look at your history it may show your balance, going back, off by the amount transferred. If you log out of your internet banking account and log back in it should show your correct balance. Our internet banking provider is aware of this issue and is working on a fix. We will notify you once the fix is completed. Sorry for any inconvenience this may have caused.

Thank You,  
Petefish Skiles & Co Bank
